**Re: Government Tower Generator Project  
TPCG Change Order #4**

Ms. Bray:

The purpose of this letter is to memorialize MCA's recommendation to accept the subject Change Order to the project's Schedule and Contract Amount. This change order is submitted to TPCG requesting a Contract Modification to pay for conductors not included in the original project bid amount. This Change Order is described below, and in this letter's attachment.

**Contractor's CHO#7**

The power source for the generator's on-board auxiliary power panel needed to be changed from a 30A service to 100A service. This change was due to upsizing by the generator integrator during the assembly process, to include all the loads required for generator operation.

Please see the attached Thomassie Change Order document for more details. Let me know if you have any questions or comments.

Sincerely,

**Marrero, Couvillon & Associates, LLC**

**Robert Mejia, P.E.**
