RESOLUTION NO. 21-

REQUESTING THE LOUISIANA DEPARTMENT OF TRANSPORTATION & DEVELOPMENT (DOTD) AND DOTD SECRETARY SHAWN WILSON TO ADDRESS VEGETATIVE GROWTH/TALL GRASS ACCUMULATION ALONG STATE HIGHWAYS AND ROADS IN TERREBONNE PARISH

WHEREAS, the accumulation and excessive growth of vegetative grass along many highways, roads, boulevards, and rights-of-way under the auspices of the Louisiana Department of Transportation & Development pose serious visual obstructions to motorists traveling and attempting ingress and egress to and along said roads; and

WHEREAS, maintaining safe travel along Louisiana highways and roads is vital to reducing the number of vehicular accidents and "near misses" and the overgrown vegetation not only decreases the aesthetic of Terrebonne Parish, but also poses a safety concern for traveling motorists; and

WHEREAS, many parish residents have expressed their concerns to local government regarding the excessive vegetative growth; and

WHEREAS, it would be in the best interest of the public to address the reasons why the highways, roads, boulevards, and rights-of-way are not being maintained and are such that they may endanger the health, safety, and welfare of the general public; and

WHEREAS, DOTD's Roadside vegetative maintenance guidelines are intended to accomplish the following objectives: to provide for safety of the traveling public, to blend the roadside with adjacent land uses, to improve aesthetic quality, to reduce erosion, and to increase efficiency of maintenance operations, as stated in DOTD's Policy for Roadside Vegetation Management, and

NOW, THEREFORE BE IT RESOLVED that the Terrebonne Parish Council (Public Services Committee), on behalf of the Terrebonne Parish Consolidated Government, requests the Louisiana Department of Transportation & Development formally address and or cut and maintain the many roads, highways, boulevards, and rights-of-way in Terrebonne Parish that are under its auspices.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to all members of Terrebonne Parish's Legislative Delegation requesting their support of the Council's position.

AMENDMENT NO. 1 TO ENGINEERING AGREEMENT

THIS AMENDMI	ENT NO. 1, hereafter so	ometimes referred to	o as "AGREEMENT"	, made
and entered into this	day of	<u>,</u> 2021;		

BY AND BETWEEN:

TERREBONNE PARISH CONSOLIDATED GOVERNMENT, (TPCG), a political subdivision of the State of Louisiana, represented herein by its duly authorized President, Gordon E. Dove (hereafter sometimes referred to as "OWNER"), and

GIS ENGINEERING, LLC, represented herein by Dustin Malbrough, duly authorized Principal (hereafter sometimes referred to as "ENGINEER"):

is a revision pursuant to 5.1.1 (Basic Services) and 5.1.2 (Additional Services) to the ENGINEERING AGREEMENT dated March 10, 2021, for professional engineering services between the OWNER and ENGINEER.

WITNESSED:

WHEREAS, the Terrebonne Parish Consolidated Government did enter into an original engineering contract dated March 10, 2021, to the entitled **Bayou Terrebonne Dredging Project**, identified as **Parish Project No. 21-DRA-10**, **State Project No. H.009237**, and

WHEREAS, the Engineering Agreement between OWNER and ENGINEER provides for certain limitations for Basic Services and specific Additional Services, and

WHEREAS, the Parish is desirous of continuing the design for the dredging of Bayou Terrebonne, and

WHEREAS, the original agreement provided design services for phase 2 of this project, and

WHEREAS, the surveying for Phases 4 & 5 including Utilities/Pipelines and Bathemetric/Topographic Surveys need to be completed in order to proceed with the hydraulic modeling for Phase 2, and

WHEREAS, GIS requested an amendment to their existing contract to provide services to continue with the design of the project, and

WHEREAS, this above work will increase the additional services section of the contract

AMENDMENT 1

by \$95,340.00.

WHEREAS, the TPCG is desirous of having these services continued so that there is a need for additional funds to be added to the contract for an increase in the upset limit for these services, and

NOW THEREFORE, be it understood and agreed by the parties hereto amend the contract as follows:

Section 5, Paragraph 5.1.1, reads as follows:

5.1.1 For Basic Services. OWNER shall pay ENGINEER for Basic Services rendered under Section 1 (as amended and supplemented by Exhibit "A", "Further Description of Basic Engineering Services and Related Matters") as follows:

Phase 2 (Broadmoor to Hollywood Road) - Lump Sum \$113,850.00

Written Authorization must be granted prior to moving forward beyond Phase 2

Amend Section 5, Paragraph 5.1.2.1, to read as follows:

5.1.2.1 General. For Additional Services and Reimbursable Expenses rendered under Paragraphs 2.1.1 through 2.1.17, inclusive (Except services covered by Paragraph 2.1.7 and services as a consultant or witness under 2.1.16), on the basis of Exhibit "D", "**Professional Services Rate Schedule – January 2021".** At this time the following additional services are anticipated and Estimated Costs shown below are recommended for budgetary considerations.

Additional Service	Original Cost	Additional	Total Cost
		<u>Cost</u>	
2.1.1 Environmental Permitting	\$39,470.00	\$0.00	\$39,470.00
2.1.9 Utilities/Pipeline Surveys	\$27,945.00	\$59,340.00	\$87,285.00
2.1.9 Bathemetric/Topo Surveys	\$23,000.00	\$36,000.00	\$59,000.00
2.1.12 As-Builts	\$15,0000.00	\$0.00	\$15,000.00
2.1.17 Landowners Meetings	\$30,000.00	\$0.00	\$30,000.00
2.1.17 Hydraulic Modeling	\$28,635.00	\$0.00	\$28,635.00
Total Services	\$164,050.00	\$95,340.00	\$259,390.00

Section 5, Paragraph 5.1.2.2, reads as follows:

5.1.2.2 Special Consultants. For services and reimbursable expenses incurred for coordination of special consultants employed by ENGINEER pursuant to Paragraph 2.1.1 or 2.1.17, on the basis of Exhibit "D". Services and reimbursable expenses of special consultants will be approved by ENGINEER, but shall be paid directly by ENGINEER. At this time, the following special consultants are anticipated, and the Limitation of Costs shown below are recommended for

budgetary considerations: Geotechnical \$28,750.00

Section 5, Paragraph 5.1.5, reads as follows:

5.1.2.4 Resident Project Services. For resident services during construction furnished under Paragraph 2.2.1, on the basis of Exhibit "D" for services rendered by principals and employees assigned to field offices in connection with resident project representation with a Limitation of Cost of \$190,500.00

Section 5, Paragraph 5.1.5, reads as follows:

5.1.3 For Reimbursable Expenses. In addition to payments provided for in Paragraphs 5.1.1 and 5.1.2, OWNER shall pay ENGINEER the actual costs of all Reimbursable Expenses incurred in connection with all Basic and Additional Services with a Limitation of Cost of \$51,300.00 (for All Phases)

Amend Section 5, Paragraph 5.1.5, to read as follows:

5.1.5 The estimated cost of Paragraphs 5.1.2, 5.1.3, and 5.1.4, shall have a combined Limitations of Cost in the amount of \$529,940.00, which shall not be exceeded without the issuance of a formal change order authorized by the Terrebonne Parish Consolidated Government through its duly authorized President.

Ms. Bray:

GIS Engineering, LLC (GIS) is pleased to submit this Amendment No. 1 to continue providing Professional Engineering services for the above referenced project to Terrebonne Parish Consolidated Government (TPCG).

Civil Engineering Additional Services:

GIS shall provide the following task as additional service required for the completion of design of the above referenced project. These services are not included as part of the Basic Services and are on a Time & Materials basis.

Task 1: Surveying

The previously performed Utilities/Pipeline Surveys and Bathemetric/Topographic Surveys included only the portion of Bayou Terrebonne listed as Phase 2 of the above reference project. Additional Utilities/Pipeline Surveys and Bathemetric/Topographic Surveys are required for the remaining sections of Bayou Terrebonne (Phase 3-5) to complete the required hydraulic modeling. Without the survey data, the model cannot be completed.

Cost:

The fees for services are listed below for each task. Additional Services will be rendered on a time and material basis. A detailed summary of services and associated budgets for each task is as follows:

Subject:

Amendment No. 6 Proposal

Reference:

Bayou Terrebonne Drainage Improvements Project (Ellendale Levee)

TPCG Project No. 17-DRA-42 GIS Project No. 39130-1071/1072

Ms. Bray:

GIS Engineering, LLC (GIS) is pleased to submit this Amendment No. 6 proposal to provide Professional Engineering Services to the Terrebonne Parish Consolidated Government (TPCG) for services to be completed on the above referenced project.

Civil Engineering Basic Services:

GIS proposes to peform the basic services scope of work required for the complete Design, Bidding/Advertising and Construction Administration Phases for the addition of the Ellendale Levee. The Ellendale Levee Project scope is to raise approximately 2.25 miles of existing levee around Ellendale Subdivision and Golf Course from its existing elevation to EL +8.00'. The services required for the completion of each phase of the project are described in the following section.

Preliminary Design Phase

This Phase will include assembling and evaluating all existing data, previous studies and design, and all pertinent information required for design, as well as all engineering basic services required for the completion of preliminary plans and the preliminary opinion of probable cost for the project. The services to be performed under the preliminary design phase will generally consist of the following items:

- Preparation of final design criteria.
- Design and preparation of preliminary plans.
- Preparation of outline specifications in accordance with the latest edition of the Louisiana Standard Specifications for Roads and Bridges and TPCG Standards.
- Preparation of opinion of probable cost estimates based on the preliminary plans.
- Preparation of all special specifications, specialty item descriptions, and details for the project.
- Submission of preliminary plans to TPCG for review and comments.

Jeanne Bray June 3, 2021 Bayou Terrebonne Drainage Improvements Project (Ellendale Levee) Page 2

Final Design Phase

In this phase, GIS will provide all services required for the completion of final plans, specifications and cost estimates for the project. The final design phase shall be initiated upon approval of preliminary plans by TPCG. The services to be performed under the final design phase shall generally consist of the following items:

- Incorporation of TPCG comments into the final plans.
- Preparation of final specifications and bidding documents for review by TPCG.
- Design and preparation of completed detailed final plans. The final plans are to include detailed final drawings for specialty items, layouts, utility locations, if applicable, or any other special details.
- Preparation and submittal of updated opinion of probable costs based on the final plans.
- Submittal of engineer stamped, signed final plans.

Bidding Phase

After authorization to proceed with the bidding phase, GIS shall assist TPCG in advertising for and obtaining bids for the project. GIS's services shall include the following:

- Assist TPCG in advertising and obtaining bids or proposals.
- Issue and track bid documents issued to prospective bidders.
- Issue addenda as appropriate to interpret, clarify or expand the Bidding Documents.
- Consult with and advise TPCG as to the acceptability of subcontractors, suppliers and other persons and organizations proposed by the prime contractor.
- Assist TPCG in the course of any negotiations with prospective contractors.
- Attend the bid opening, prepare bid tabulation sheets and assist TPCG in evaluating bids or proposals and in assembling and awarding contracts for construction.

Construction Administration Phase

GIS shall provide construction administration services during the construction phase of the project. GIS shall serve as TPCG's representative and act on behalf of TPCG to the extent provided in the construction documents. GIS's service shall include the following:

- General administration of the construction contract.
- Preconstruction conference.
- Receive, review and determine acceptability of contractor schedule, submittals, shop drawings and RFI's.
- Submit to TPCG contractor's defective work, as necessary
- Receive, review and recommend pay applications
- Receive, review and initiate change orders and work directives as necessary to complete the work.
- Conduct regular site visit to ensure compliance.
- Conduct substantial completion inspection and provide punch list to TPCG for review.
- Conduct final inspection and provide TPCG with notice of acceptability of the work.

Civil Engineering Additional Services:

GIS shall provide the following tasks as additional services required for the completion of design and construction oversight services. These services are not included as part of the Basic Services and are on a Time & Materials basis.

Survey Subcontractor

This additional service is to obtain all necessary existing elevations and topography for design and layout of the proposed levee work.

Permitting

This additional service is to apply for, and respond to all agency comments, for all required permits necessary for the proposed levee work.

Geotechnical Subcontractor

This additional service is for the required borings and CPT's necessary for design and layout of the proposed levee work. This service also includes coordination of the proposals, field reconnaissance, and reporting of necessary geotechnical investigation required for design and layout.

Construction Oversight

GIS shall provide resident project representation as an additional service through the construction phase of the project. The Project Representative will be on-site to verify and observe construction as required by the specific stage of construction or scheduled construction activities.

As-Built Drawings

GIS will compile the contractor's markups as well as the resident project representative's markups to provide the Parish with a set of as-built drawings at the completion of the contract.

Reimbursables

Additional services under this task is for reimbursement for all equipment required such as vehicles, cameras, gps, and project reproduction.

Cost:

The fees for services are listed below for each task. Additional Services will be rendered on a time and material basis. A detailed summary of services and associated budgets for each task is as follows:
